

Press Release

CCR Italia is successfully entering the Italian WEEE market

Dornach, March, 14th 2008

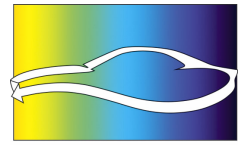

CCR REWEEE is growing continuously its international business and number of customers by signing numerous contracts, both B2B and B2C.

In Italy CCR REWEEE became about one month ago an official consortio and is part of the groups who are defining the Italian Clearing house for WEEE. In the meantime CCR Italia could sign a contract with ECOR'IT, a large Italian take back System having under contract about 60.000 t appliances put on market. CCR Italia is the general contractor for ECOR'IT and has already a verbal confirmation of getting another 30.000 t of WEEE as general contractor.

The own system CCR REWEEE could win one month after start already another 3.500 t and the amount is rapidly increasing every day.

CCR Logistics Systems AG seated in Dornach near Munich is the specialist in the management of take-back systems. As an international Business Process Outsourcing Partner for industry and trade, CCR develops take-back systems with full-coverage logistics processes and IT - supported reporting and clearing. CCR Logistics Systems AG is a subsidiary of the Reverse Logistics (Group) GmbH.

The Reverse Logistics Group (RLG) is specialist in reverse logistics. Subsidiaries and affiliated companies of RLG are leading in running take back systems for products and packaging in Europe. Comprehensive logistics processes and IT supported reporting and clearing are core competences of the group. More than 3.000 customers from industry and commerce rely on solutions from RLG, among them renowned and well-known companies such as the Volkswagen
